BCG Developments to hold a third round of community consultation from June 1 – June 30, 2017

Over the past two years, BCG Developments (BCG) has been engaging with local government, stakeholders and residents on the early stages of planning for a proposed community in Port Moody and Anmore on the IOCO Lands. The discussion topics in this third round of consultation will reflect and build on the feedback received during the first two rounds of public consultation held in 2015.

BCG, along with recognized Canadian architect Peter Busby, has reviewed this previous input and are currently exploring opportunities, concerns, and benefits prior to developing a sustainable master-planned proposal.

You're invited to participate either online or by attending an open house and/or small group meeting to provide input on the proposed Sustainable Design Principles and potential features for this new community.
